Display solutions are one of the most popular and impactful visual communication media on the market.

Whether it is for frequent and regular use or for a durable fixed arrangement, a multitude of solutions exists and for any budget.

To successfully communicate your messages and brand at point of sale, shows and events it is essential to understand:

- The environment in which the display will be exhibited.
- Whether the display will be renewed and how frequently.
- The quality appropriate to the event and relative to the desired budget.
- How to accessorise the product to increase its functionality.
- How to stand out from the competition with high-end, original solutions that distinguish your brand from the competition.

This comprehensive guide offers you a wide choice of products. We will help you find the best solution suited to your needs.

Roller Banners

Simple, striking, stylish – banners are still one of the most popular, effective and easy ways to promote your business and get your message across in a wide variety of environments.

With one of the most comprehensive ranges on the market, our banners are designed to suit every budget and fit all situations. From single to frequent use and if you need it, the ability to change your graphics.

Roller Banners are one of the most popular and effective communication tools available.

Using our solutions will exceed your expectations, whatever your needs may be, from desktop, retail outlets, exhibition stands to the office environment.

We have one of the widest ranges of both economy and premium Roller Banners on the market, with widths ranging from 600mm to 3000mm! It's therefore important to choose the right one for your needs. Here is a quick guide explaining what you should consider.

Before choosing your Roller Banner, ask yourself:

1. Where will it be positioned: indoors or outdoors?
2. How often will your banner be used
- Occasionally or daily?
3. How much space is available for the banner?
4. What is the right size to attract your audience?
- It is important to choose the right size without over-crowding your display area.
5. Will you need to change the graphic? - Are the messages consistent or will you need to alternate messages for different occasions or offers?
6. What is the right material for your needs?
- Check the environment and select the right materials to meet your needs - banner vinyl, polyester or textile fabric.
7. What is your budget?

Top graphic rail attachments explained

Snap rail

Premium dual action self-adhesive and snap rail

Self-adhesive rail

SmartFix rail (snap / self-adhesive)

We recommend using PVC media when using the adhesive rail

Tension Banners

Our most versatile range of banners, designed to fit into any space and provide a seamless image and backdrop that gives maximum impact.

Our Tension Banner systems can be modular and linkable to create any size and shape, or simple stand-alone units, making them versatile and easy to use. They are also available in a wide range of substrates.

Perfect for situations where you need to change your message frequently, such as a retail or a show environment.

Our Tension Banners are a popular and cost-effective solution that allow for the quick and easy changeover of graphics. Many also come supplied with sturdy nylon bags for ease of transport.

Our banners come in a wide variety of sizes, from a height of 1500 to 2900mm, and widths ranging from 300 to 1600mm. For more flexible solutions, our Uno and Stealth banners can be linked to create modular systems that can be re-configured to make the best use of the space you have.

Choosing the right Tension Banner:

1. Will your banner need to be packed up and moved regularly?
2. How often will the banner be re-used and need a change of graphic?
3. What is the size of the footprint that you need to use your banner within?
4. Do you have any height restrictions? As our banners can be provided in a range of heights to take advantage of vertical spaces or limitations.
5. Are you deploying in high traffic environments? As our banners are supplied with a range of bases to suit each space.
6. Finally, determine your budget and choose the best quality to suit your needs.

Flags

For both outdoor and indoor use, flags are an eye-catching option for displaying your message or giving directions.

There are a wide range of options available, from on-the-move street flags to our highly popular Zoom+ flags.

Flags are one of the most striking display options available.

Our flags can be made in a wide range of sizes, materials and finishes suitable for everyday environments such as tarmac, grass and for specialist environments including sand, snow and wall mounting.

No matter in which environment you wish to use our flags, we can provide a suitable construction and base that will serve your needs.

Flag shapes available

A Flag for all situations and locations

Free-standing

Wall mounted or post mounted

Backpack for mobility

Printing and finishing

Printed pocket (full graphic)

Double-sided printing

Tips for taking care of your flag:

Flags are often exposed to the harshest conditions, even the highest quality materials and finishes will suffer if not treated with care. Here is our guide on how to take simple care of your flags:

1. **Consider the positioning of your flag to minimise the effects of the environment.**
Air pollution can turn white areas grey, and too much UV light can cause fading and fabric deterioration.
2. **Reducing the flying time will preserve the life of your flag.**
A flag will last between six and eight months when flown constantly, so taking down the flag when not in use will help it to last longer.
3. **Take note of the climatic conditions.**
Flags should be taken down during poor weather conditions. Heavy rain and strong winds can increase the weight of the flag and put extra strain on the flagpole. Our flags are designed to withstand Up to 18mph winds as standard.
4. **Washing your flag.**
Flags can be machine washed with everyday soft detergents on a 30° wash. They should always be allowed to dry out completely before folding and storing.

Four large stackable
water base for
maximum stability

Comes with one pole
(six part bungee pole
and two end rods)
two hooks and two
elastic loops

Zoom+ Arch

The arch shaped flag is perfectly suited to identify entrances at events, particular sporting meets for registration areas, or race start / finish lines. For stability we recommend using two optional extra stackable bases per side.

Material :	GRP fibre glass pole - chrome steel end caps, plastic hook	
Graphic :	Single-sided	
Graphic attachment :	Pole pocket	
Wind resistance :	Up to 32 km/h

Outdoor

Giving your message the impact it deserves in outdoor locations requires specialist, high quality solutions.

Choose from our comprehensive range of banners and signage for displaying your brand in a wide variety of indoor or outdoor locations. Our range also includes tents, counters and backwalls, sign boards and barriers for pedestrian guidance, not to mention our choice of inflatables and parasols.

Choosing the right outdoor display product is important to ensure maximum branding impact and to attract your desired visitors and customers.

It is also critically important to make the right choice that will suit your environment; display area size, possible weather conditions, visitor numbers, mobility and repeat usage.

A taller display may make all the difference to the impact and performance of your branding.

Some Tips To Take Care Of Your Products

Outdoor products are designed for moderate outdoor usage during the daytime. But even high quality materials deteriorate if not treated with care and used in extreme weathers.

1. Choose your location carefully to minimise the effects of the environment.

Air pollution can turn white to grey, UV rays can also alter the colour of your visuals and cause deterioration on materials used.

2. Optimise exposure time.

By storing your Outdoor products between each use, their lifespan will be extended.

3. Consider climatic conditions.

All Outdoor products are not weather resistant in the same way. Heavy rain combined with high winds may increase the risk of deterioration of certain products. Follow the instructions given in the technical specification data sheets of each product provided.

Designed For All Occasions

- Outdoor Exhibitions
- Music Festivals
- Markets
- Sport Events
- Outside Sales Outlets
- Fairs
- and many others!

Our Outdoor Range

POS Signage

Whether you are welcoming visitors or pointing the way, choosing the right signage is an important way of capturing attention.

We have a wide range of professional signage systems to choose from, including indoor, wall mounted and poster frames, as well as free-standing and portable units for all your needs.

It is essential that Display Solutions match your interiors.

We have a comprehensive portfolio of Signage Solutions suitable for different settings such as: corporate office interiors, reception areas, public spaces as well as commercial, point of sale and retail environments.

Our versatile display solutions have a range of quality components for easy installation and a wide choice of fixing options for wall or ceiling suspension where required. They are also available in different finishes that perfectly match surroundings.

Before Choosing Your Display Solution, Please Consider the Following:

1. Do you need Free-Standing, Wall Mounted or Hanging Signage?
2. Does your display need to be printed or customised at all?
3. Does your signage need to be illuminated?
4. Do you plan to incorporate a device into the display like an LCD screen or iPad?

Our specialist Modular Solutions ranges, Twista and Strata, are made to order, with a wide range of fixing options and finishes to blend perfectly into your environment.

The Advantages of our Range

Contemporary Designs

Custom sizes and colours

Quick and easy installation

Simple graphic attachment

Lightweight and durable

Lockable for security

Counters

Designed for a wide variety of uses, our portable counters cater for almost any situation or occasion and are an ideal way to welcome your guests.

We have designed a comprehensive range of items in many shapes and sizes, most of which can support graphics that project your brand.

We provide counters for all budgets and requirements.

Our counters can serve as display surfaces, lecterns, data pods, workstations, display towers, columns and plinths and the variations of what you can do with them is infinite.

You can also increase your impact by adding height and visibility with a header kit or flag. Our Counters are simple and quick to build with tool-less construction, they are made in-house and can be made to order if customisation is required.

Before choosing your counter, please consider the following:

1. How many times will it be used? Occasionally or regularly?
2. Do you need to transport it? And how often?
3. Will you need storage for catalogues for example?
4. Do you need to host visitors or give a lecture?

2 Choose your assembly option

MDF Freestyle

MDF Tambour wrap counter, finished in a choice of fabric covering (See Step 3). Supports maximum load of 75kg. Graphics attach directly to fabric with hook and loop.

Available for all products.

Physique Pole Graphic

Lightweight structure made with unique twist and lock aluminium pole system and graphics that attach directly to the unit.

Available for Double D, Eclipse and Curved Workstation.

3 Choose the fabric type and colour

Choose from the two options; Luxury Foam Backed Nylon or Smooth (formerly Prelude). See all available colour options on page 118.

4 Choose the tabletop and base colour

Tabletop and base are available in four colours:
Beech, black, silver or white.

5 Choose to accessorise with a flush mounted tabletop iPad* Holder

Available for all products and suitable for iPad 2,3,4 and Air* and holder available in three colours : Black and white

Add an iPad holder to complete the look!

Curved Workstation

Sturdy counter with both open back and full wrap options available. Lockable doors, shelving and graphic wrap available as optional extras.

Freestyle	PK160	⊗ 1000 (h) x 1000 (w) x 500 (d) mm
Pole graphic	PT160	⊗ 1000 (h) x 1000 (w) x 500 (d) mm

Accessories :

iPad Holder	IPDM	⊗ 305 (h) x 230 (w) mm
Lockable door*	RK322	⊗ N/A
Internal shelf	RK303	⊗ N/A
Case	AC312	⊗ N/A
Carry bag	AB115A	⊗ N/A

*Lockable door option isn't compatible with pole graphic assembly option

Eclipse

Robust counter with large storage capacity. Ideal for use as workstation or product display unit. Available as a full graphic wrap only.

Freestyle	PK152	⊗ 1000 (h) x 1000 (w) x 500 (d) mm
Pole graphic	PT152	⊗ 1000 (h) x 1000 (w) x 500 (d) mm

Accessories :

iPad Holder	IPDM	⊗ 305 (h) x 230 (w) mm
Carry bag	AB112A	⊗ N/A
Case	AC311	⊗ N/A

Luna

Lightweight portable counter, ideal for road shows with low-profile shape and fine-grade fluted tambour for a smoother finish. Twist and lock poles for added strength, integral shelf included.

Fabric covered	PK113-F	1000 (h) x 860 (w) x 400 (d) mm
Corex	PK113-W	1000 (h) x 860 (w) x 400 (d) mm

Accessories :

iPad Holder	IPDM	305 (h) x 230 (w) mm
Carry bag	CBB-005	N/A
Case	AC311	N/A

Double D

Great all rounder counter available as open back and full wrap. Lockable door and graphic wrap available as optional extras. Please ask for advice on lockable door.

Freestyle	PK161	1000 (h) x 1000 (w) x 500 (d) mm
Pole graphic	PT161	1000 (h) x 1000 (w) x 500 (d) mm

Accessories :

iPad Holder	IPDM	305 (h) x 230 (w) mm
Carry bag	AB112A	N/A

Ideal station counter for presentations

Mercury*

Versatile counter with LCD mount (up to 20"), acrylic shelf and cable management port included. Only the freestyle option is available, but can have full wrap or open back.

Freestyle	PK190	1520 (h) x 850 (w) x 600 (d) mm
-----------	-------	---------------------------------

Accessories :

Internal shelf	PK190T	N/A
iPad Holder	IPDM	305 (h) x 230 (w) mm
Carry bag	AB115B	N/A

Available without banner

iPad Holder optional extra

Comet*

Stylish tear drop counter, available with Design iPad* holder and 360° mount option but shown with integral literature holder. Only the freestyle option is available.

Freestyle	PK189	1010 (h) x 1010 (w) x 655 (d) mm
Freestyle with graphic	PK189A	1800 (h) x 1010 (w) x 655 (d) mm

Accessories :

Design iPad Holder + 360° mount (silver)	IPAD-SH-360S	N/A
Carry bag	AB115B	N/A

Tornado

Lightweight, weatherproof and durable curved outdoor or indoor promotional counter with water drainage notches. Support poles and header panel available as optional extra.

Material :	Moulded HDPE, PVC tambour
Assembly :	Push-fit - Tool-free
Collapsible :	No
Counter top :	No
Graphic attachment :	Push-in
Shelves :	No
Bag :	Two carry bags - optional extra

Tornado	PK410	1040 (h) x 850 (w) x 500 (d) mm
---------	-------	---------------------------------

Accessories :

Header and poles	PK411	250 (h) x 600 (w) x 20 (d) mm
Tabletop and base bag	AB187	N/A
Graphic wrap bag	AB187A	N/A

Base can be weighted using water or sand for outdoor use

Tabletop and base bag optional extra

Graphic wrap bag optional extra

Internal storage area

Counta

Indoor white, PVC, lightweight, portable demonstrator unit which includes header panel and shelf supporting poles. Graphics can be applied as vinyl directly onto the base wrap.

Material :	PVC
Assembly :	Push-fit - Tool-free
Collapsible :	Yes
Counter top :	No
Graphic attachment :	Push-in
Shelves :	One
Bag :	One carry bag

Counta	PC607	2195 (h) x 8050 (w) x 450 (d) mm - Assembled
		280 (h) x 680 (w) x 20 (d) mm - Header

Promotional counter, ideal for retail use

Shelving and storage area at reverse

Carry bag included for transportation or safe storage of your Counta

Backwalls

Our Backwall products include our Hop-up and Pop-up displays and Formulate also. They provide a simple way to create stunning backdrops, exhibition stands and displays.

They are lightweight, compact and practical, with cleverly designed systems that set up in minutes. Graphics are easily attached to a Pop-up or Formulate frame or left in place on a Hop-up.

Our range also allows for creative use of larger spaces, with linkable displays and large-scale graphics.

Choose a Backwall to create stunning visual impact.

Our Backwalls are large in stature but are also extremely portable and easy to use. Highly popular for events, commercial galleries, lounge road shows or just used as interior decoration, they are a creative backdrop for many situations.

Before choosing your backwall, ask yourself:

1. What size is the area you need to cover?
2. What shape of Backwall is required?
3. What type of print media would you like to use?
4. How often will your display need to be refreshed or re-branded?
5. Does your Backwall display need to be reconfigurable?
6. How portable does your backwall display need to be?
7. Will lighting be required for your display?
8. How will your Backwall be transported?

Our range of display Backwalls

Impact / Quick+

Magnetic locking arms create an easy to use Pop-up frame structure. PVC graphics are held perfectly in position on the frame using graphic magnetic strips. Single or double-sided graphic option is available and Pop-ups can also be accessorised with lights and cases that convert to counters.

Embrace

Embrace is our Silicone Edge Graphic (SEG) Pop-up system with push-fit seamless fabric graphics, which hug a collapsible lightweight frame giving a sharp crisp image. Available in four sizes, Embrace allows you to erect a sophisticated display in minutes! Multiple frames can also be joined together to create larger seamless displays.

Hop-Up

A lightweight Hop-up frame system with locking arms. Fabric graphics fit smoothly across the framework and attach in place once the frame has been collapsed using hook and loop attachments. Hop-ups can also be accessorised with overhead lights.

Xclaim

This is a simple lightweight, collapsible frame with magnetic locking arms and push-fit fabric graphics. Coming in a variety of shapes and sizes, Xclaim is designed to be portable and durable and can be set up and packed down quickly and easily.

Formulate

A range of standard or custom structures, manufactured from strong yet lightweight tubular aluminium, providing a simple and portable framework which can be dressed with a tensioned fabric graphic.

Pegasus

This great range of adjustable tension backwalls have telescopic poles for adjusting the height and width, so they can fit all spaces and graphic sizes. Composed of lightweight aluminium tubes which the graphics slide onto.

Graphics stay in place with magnetic strips

Impact Straight or Curved Pop-up

Great economic frame system backwall. Suitable for use in daily changing locations such as roadshows or in fixed spaces such as commercial galleries, showrooms or used just for interior decoration.

Material :	Aluminium structure, plastic connectors
Assembly :	Magnetic connectors

Formulate

When display formats become common place and no longer stand out then choose something with innovative shapes ...

The Formulate range offers a variety of great shapes with clean lines, ideal for creating picture backwalls or defining areas in rooms by screening or zoning.

The double-sided tension fabric graphics perfectly contour the shaped aluminium structures and maximize your brand message. Formulate structures as well as being versatile, are also multifunctional when accessorised with LED lighting, iPad holders, shelving and leaflet holders (see pages page 86 and page 113).

Push-fit button connections on bungeed aluminium tubing

Baseline Range

Panel kits form a classic range of practical, durable and reconfigurable backwall display solutions.

With a range of different finishes and media fabrics to choose from you can customise your display to match your surroundings perfectly.

Please note: our panels are guaranteed for use with hook and loop male and female tapes, these are provided by us and designed specifically for this use. We can not guarantee the panels if used with another hook and loop brand.

The baseline range offers four possible frame finishes:

Baseline PVC
(Thickness 18.2mm)

Baseline Plus PVC
(Thickness 25mm)

Baseline Aluminium
(Thickness 18.2mm)

Phantom PVC
(Thickness 18.2mm)

Baseline Panel and Pole Kits

Panel and pole kits* are easy to assemble and are reconfigurable and re-positionable. Available in two panel heights, stabilising feet are included. Manufactured to order.

Material :	PVC / Aluminium
Frame :	Grey / black
Finishes :	Baseline / Baseline Plus / Baseline Aluminium / Phantom
Graphic attachment :	Hook fixing
Recommended media:	Felt coating * or optional Rigid replacement printed panels (3mm)
Graphic :	Single or double-sided
Utilisation :	Free-standing with stabilising feet (included)

4 Panel - Baseline	KK104	600 (h) x 900 (w) mm

Modular Solutions

Exhibitions are one of the most effective showcases for your company to promote its products to your audience in the most direct way. The ability to make a great first impression is critical in order to fire the imagination of passers-by.

Our inspirational exhibition stand designs and reconfigurable solutions lead the market today.

For every space there's a Modular Solution

Modular stand designs are flexible, re-configurable and re-usable. After initial purchase you can re-use the stand as many times as you wish.

They can be re-configured to freshen the appeal, selecting the components you need for the space, purpose and location, or adding new elements to fit a new space. Graphics can also be updated to give your existing stand a fresh new look if required.

Formulate

Display structures made from lightweight 30mm or 50mm diameter aluminium tubing that combine innovative shaped structures and vibrant custom fabric printing that enhance your brand communication.

Modulate™

A range of 11 aluminium tubular frames, featuring patented MagLink magnet system and Twist & Lock feet; dressed in a custom printed tension fabric graphic. Displays can be created in an instant by placing dressed frames side-by-side and the internal magnets keep them together

Vector

One of the most simple and versatile communication solutions on the market. The aluminium frame system with tensioned SEG textile fabric adapts to any application: hanging, wall mounted, free-standing, double-sided or lightbox frames.

Linear

The Linear range is perfect for many applications such as image walls, stands for retail or office layouts. The aluminium frames used provide the basis of a durable and solid structure, which can be used on a permanent or temporary bases.

Arena

The robust 25mm aluminium tubes of Arena can be assembled to create large hanging or a free-standing base from which to build the foundations of an imposing and solid stand structure. These can then be dressed in durable eyeleted PVC, held in place on the display by bungee cord.

No matter what sort of space you are dealing with, or what your communications objectives are, we have a Modular solution that will meet your requirements.

Choose from our standard kits or work with our CAD Designers to create a custom stand that perfectly suits your needs.

Once created, our kits assemble quickly and easily with a choice of custom graphic solutions.

Services available

From an initial design briefing to production of inspiring concepts, to fully-specified stands, we can design, quote and build a display solution that meets your exact requirement as a full end-to-end service.

3D CAD Design

Our design team offers standard and bespoke display solutions. We have an extensive parts library to suit your specification and individual items, such as literature holders to complete modular stand designs.

Concepts and Quotation

Our experienced team will craft the solution to your exact requirements.

Prebuild

Manufacturing is completed in our own production facilities across Europe. Clients are invited to inspect pre-build stands before they are shipped.

Graphics

Our large-scale print facilities can provide all your graphics to suit your needs.

Why choose a modular solution?

- Economics
- Aesthetics
- Ease of assembly
- Compact for easy shipment to multiple points of sale
- Standard or custom
- Unlimited renewal of brand message by simply changing the graphics

Formulate

The Formulate stand displays have no limits. This concept, although part of a wider range of POS displays, is a structure that brings brands and events to life in a more unique three dimensional way.

Custom fabric printing, by nature, allows exploring new graphic and shaped possibilities. The graphics are dye-sub printed onto specifically selected media that perfectly fits the unique shaped contours made by Formulate structures. Formulate is light weight, easy to set up and a compact package to carry.

Manufactured to order.

Aluminium tubes are
Ø30 and Ø50mm

Easy matching
system

Push-fit button
assembly

Double-sided tension
fabric graphics that
zips closed

Structures are
free-standing or use
stabilising feet

Suspension
hooks for hanging
structures

Hanging structures
can also be backlit

Structures disappear leaving original
and innovative forms in their place

A simple, intuitive solution that is easy to set up in any situation. Formulate products are available in banner configurations, backwalls from 3 to 9m wide, columns, arches, hanging signs ... and custom made.

Free-standing columns
available in varying heights

Free-standing structures

Simplicity, stability and originality are the key words that characterise Formulate free-standing structures. Available in various shapes and sizes, these structures highlight brand messaging using vibrant custom tension fabric graphics.

Accessorise your
backwalls and give
them more impact

Stabilising feet
at regular intervals

Simple assembly

Large format display

Possibility to accessorise

Greater impact and visibility

For Formulate accessories
please see page 86 .

Ideal for partitioning spaces

The primary goal of Formulate is to provide you with a layout solution where traditional wood or aluminium angular structures can be limited. Formulate allows you to be creative as the aluminium tubes can be curved to your imagination.

Hanging Structures

Formulate Hanging Structures have been specially designed to allow easy installation in complete safety.

The lightness of aluminium tubular structures makes them ideal for dressing up an exhibition stand, a commercial gallery or an indoor reception or walkway.

Available
from Spring
2019

Optional back
lighting available

Customise the
interior and
exterior of your
hanging structures

Finishing for Hanging Structures

Complete your hanging structure with a custom printed graphic. As well as adding a brand message to the outer structure you can also brand the inside, leave it plain or add a pattern or another message!

Double-sided graphics

Custom made hanging
structures also available

Stands

Formulate stands are composed of structures with original and unique modern forms. Their creative style enables messages to be highlighted.

The manufacture of tubular structures in the Formulate range requires a range of production techniques (cutting, welding, bending for example). Once dressed with custom printed fabric graphics, Formulate offers endless possibilities of unique customisation.

Combine curved and straight shapes to create unique forms for your structures

Bring depth and perspective to your stand with arches and stand off structures

Self-supporting arches offer double-sided customisation for double the brand impact

Custom Made

Custom Formulate shapes are a great way to stand out

Original shapes that adapt to all environments

The ability to bend and cut tubular structures, combined with the use of a custom printed stretch fabric graphics, makes it possible to create custom made solutions for stand and layout furniture with infinite possibilities.

Custom creations are made on demand and optimise the return on investment by deploying brands in the most suitably creative display solution.

PATENT
PENDING

Modulate™

Inspired by the Formulate concept, Modulate™ is composed of a set of 11 frames made from Ø30mm aluminium tubes and dressed with a custom printed tension fabric graphic. These frames can easily connect to each other using powerful magnets placed inside each structure.

Based on this simple magnetic principle, it is possible to combine the various Modulate™ frames to create configurations for all communication fields: point of sale, trade shows, exhibition venues, shopping centres, conferences or simply within company reception or welcoming areas or office spaces.

360° MagLink connectors in each pole

Simple assembly with numbered frame parts

Bungeed tubing with push-fit locking buttons

Stabilising feet with Twist & Lock system

Optional 400mm extension to change structure height

Double-sided custom printed graphic

Central reinforcement bar (Ø18mm)

Transport bag with dedicated pockets for feet and the graphics

MagLink connectors make it easy to place your frames at any angle you want

Assemble frames using the bungeed tubes and push-fit buttons

Add the central reinforcement bars and connect all the tubes using the easy matching system

Place the Twist & Lock foot under the structure and rotate it to lock it

Use the gloves provided with the structure to manipulate the visual and slide it on the frame

Versatile scalable configurations

Ideal for quick changes in the retail environment

Reconfigurable stands

Create new workspaces

Mix & Match

Choose your frames from the sizes and shapes offered and join them magnetically at any angle with the internal patent pending MagLink system. Combine any number of frames and mix at will to make new configurations instantly - Modulate™ can evolve according to your display needs from a simple backwall to free-standing columns or an innovative exhibition stand in minutes!

Vector

Because businesses and projects evolve, the Vector aluminium frame system with SEG custom printed graphics lends itself perfectly and stands out as one of the most simple and versatile communication solutions on the market.

The Vector range is highly versatile and offers optimal visual impact for original designs that adapt to many environment: showrooms, retail outlets, exhibitions, museums amongst others and can be manufactured to order.

Eight aluminium profiles

Custom printed SEG graphic

Simple and quick assembly

Easy matching system

Accessories

LED strips are pre-assembled in frames

Choice of stabilising feet

13 Vector frame modules

Free-standing Frames

Single or double-sided free-standing frames with integrated LED lighting

Hanging Structures

Metal hooks attach to the structure for ease of suspending

Modular Stands

Combine rounded and straight angles for full graphic visibility

Scalable solutions that suit your needs and budget

From free-standing backwalls to exhibition shell schemes or stands, Vector Modules offer you versatile designs that adapt to all types of events and spaces. Combine our thirteen stock Vector modules to create innovative stand solutions which give you the freedom to re-develop your stand as often as you need to. This guarantees an excellent return on investment from the ability to update, extend or add structures or custom printed graphics for a new brand message or stand design or configuration. Each module is manufactured with 50mm aluminium profiles and cut into 1.25m sections for ease of storage and transportation.

Linear

The Linear range is ideal for free-standing graphic backwall applications, full stands or even office furniture. It is composed of aluminium profiles that form the basis of a solid and durable structure, either for permanent or temporary usage.

Linear is a modular solution consisting of different profiles created as an alternative to structures with just stretch fabric graphic cladding.

Linear structures can also accommodate a versatile array of custom graphic alternatives such as rigid panel graphics as well as roll-able PVC custom printed graphics too.

The construction is based on posts with channels and reinforcing beams which allow you to equip your structures with said graphics.

Manufactured to order.

Range of 6 posts and 2 beams

Coded system for ease of assembly

Simple male and female Linear post connections

Allen key assembly and locking

PVC graphic affixed with magnetic tape

Choice of stabilising feet

Choice of accessories

Five Linear modules

Ideal for the use of soft or rigid PVC custom printed graphics

Free-standing Frames

Backwalls

Modular Stands

Adapt your stand according to your space and requirements.

The Linear display system is available in five modules that can be combined to create multiple different configurations.

The posts are cut into 1.25m sections, for ease of transportation and storage or ready for use with your custom printed graphic.

Change the size of your stand quickly and easily by combining different modules

Arena

If your project requires a sturdy, larger scale solution, then choose Arena.

This is a tubular 25mm aluminium frame structure that is highly stable yet is still a scalable display solution. The different sections can be assembled and re-used according to the needs of each project.

- Tubular aluminium frame 25mm diameter (approx)
- Straight sections available in nine different lengths
- Supports up to 100kgs over a 2m span
- Use in structures up to 6m long without a down section
- Graphics attach by bungee fixings
- Structure is assembled with bolt and wing-nut fixings
- Tool-less assembly

Straight or curved sections

Multi-directional connectors

Tool-free assembly

Accessories

Can be used with printed vinyl or fabric graphics

Economical re-usable and reconfigurable structures

Use free-standing

Literature Holders

Being able to display your literature in a way that encourages your visitor or customer to look and take it away is always the main challenge facing Marketeers!

Our literature holders come in a variety of sizes and forms to give the greatest choice available. Literature completes your display and we provide a choice of stylish literature holders to suit any display situation – available in a range of materials and finishes including aluminium, polycarbonate and injection moulded.

Portable, lightweight
and easy to use

Solution Systems

Double-sided

Quantum

Perfect combination of classic design with a stylish look. Literature can be left in tray when unit is folded flat.

Material :	ABS plastic (trays), powder coated steel (arms/base)
Colour:	Smoked grey
Documents sizes :	A4
Pockets :	Five
Double-sided :	Yes
Transport :	Foamed premium bag (included)

Quantum A4	AS316-01	📏 1320 (h) x 285 (w) x 380 (d) mm
------------	----------	-----------------------------------

Ultra compact

Cascade

Robust and lightweight model. The one-step cantilever assembly makes it collapsible for easy transportation.

Material :	Polymer, polycarbonate
Colour:	Grey
Documents sizes :	A4
Pockets :	Four
Double-sided :	No
Transport :	Premium fabric bag (included)

Cascade A4	AS320	📏 1480 (h) x 265 (w) x 310 (d) mm
------------	-------	-----------------------------------

Zed-Up Lite

Popular range of aluminium literature stands that are stylish and highly portable. Folds down for easy transportation in a heavy duty hard case.

Material :	Acrylic and anodised aluminium
Colour :	Silver
Documents sizes :	A5 / A4 / A3
Pockets :	Six
Double-sided :	Yes
Transport :	Hard case (included)

A5 (6 Pockets)	AS318-002	📏 1115 (h) x 210 (w) x 280 (d) mm
A4 (6 Pockets)	AS315-002	📏 1460 (h) x 256 (w) x 370 (d) mm
A3 (6 Pockets)	AS319-002	📏 1420 (h) x 470 (w) x 370 (d) mm

Xanadu

Basic fabric literature holder with stabilising foot and bungee pole. Great lightweight option. Three pieces construction.

Material :	Fabric, aluminium
Colour:	Black
Documents sizes :	A4
Pockets :	Four / eight
Double-sided :	No
Transport :	Fabric bag (included)

4 pockets	WH431	📏 1365 (h) x 280 (w) x 380 (d) mm
8 pockets	WH432	📏 1365 (h) x 560 (w) x 380 (d) mm

CNC available for custom shaped graphics (Optional extra)

Linear Media Post

A robust, handy and very versatile graphic and literature holder which allows you to display information and promotion at the same time.

Material :	Anodised aluminium post, steel dome base
Colour :	Silver
Documents sizes :	A4
Pockets :	Three - included
Graphic :	Single or double-sided
Graphic :	Optional extra - ideal with 5 mm foamed PVC
Transport :	Carry bags (optional extra)

Linear Media Post	LK026-001	📏 2060 (h) x 523 (w) x 450 (d) mm
-------------------	-----------	-----------------------------------

Accessories :

Base bag	AB910
Pole bag	AB293

Adjustable
A4 Literature
holders

Injection Moulded Literature Holder

Aesthetic and versatile literature holder which can be mounted to Linear (direct mounting), Vector, Aero+ and Formulate stands (with optional universal clamp) or wall mounted.

Material :	Injection moulded plastic
Colour :	Smoked light grey
Documents sizes :	A4 / A5 / DL
Pockets :	One
Double-sided :	No

A4	AH5A4P	📏 330 (h) x 254 (w) x 55 (d) mm
A5	AH5A5P	📏 250 (h) x 182 (w) x 45 (d) mm
DL	AH5DLP	📏 250 (h) x 132 (w) x 45 (d) mm

Suitable for wall mounting or mounting on the back, right or left of the post side

Cases

We know that using lightweight luggage to transport your structures and visuals helps to make your work easier.

Our range of bags and cases are made of flexible and rigid materials adapted to your specific transport or storage needs.

Linear

Extra strong, large moulded case for transporting Linear or Vector extrusion and kits. Optional configurable cardboard inserts for controlled storage. Complete with support straps for extra security.

Material :	Medium-density polyethylene (MDPE), aluminium handles
Wheels :	Two
Handle :	Two
Stackable :	Yes - 5 max

Linear	AC506	1300 (h) x 740 (w) x 360 (d) mm (external size)
Linear (No compartments)	AC506-001	1300 (h) x 740 (w) x 360 (d) mm (external size)

Cardboard interior compartments

Strong aluminium handle

Option to compartmentalise the inside

Graphic Drum

Comes in a range of sizes to enable you to transport graphics safely and securely. Manufactured from tough, lightweight polyethylene. Available in two heights and two diameters.

Material :	Polyethylene
Wheels :	No
Handle:	One
Stackable :	No

Graphic Drum 850 (h) mm	AC305	850 (h) x 400 (Ø) mm
	AC306	850 (h) x 300 (Ø) mm

	AC366	1020 (h) x 300 (Ø) mm

Carry handle

Secure fastening

Up to five graphic drops

Up to ten graphic drops

Ø 300mm

Ø 400mm

Ideal for transporting graphics

* Depending on media thickness

Zenith

The new height extendable tough moulded polyethylene Zenith standard and tall cases offer a multitude of features.

Versatile

Ideal ultra-portable transport solution with maximum storage for pop-ups, backwalls, roller banners and extrusions, they also double up as counters with optional extra graphic wrap and table top.

Scalable

The standard case will house a 3x5 pop-up system and graphics. The optional 100 mm high extension creates a taller configuration which can house 850mm wide roller banners.

Secure

Internal dividers to protect graphics are included and the case can be locked using padlocks (not supplied).

Material :	Medium-density polyethylene (MDPE) / Metal
Wheels :	Two
Handle:	One
Stackable :	No
Table top:	Optional extra (Beech / black / silver / white)
Graphic wrap :	Optional extra
iPad holder :	Optional extra (Black / white)

Zenith standard case	AC600	956 (h) x 600 (w) x 400 (d) mm (external size)
Zenith tall case (Standard + 1x extension)	AC601	1056 (h) x 600 (w) x 400 (d) mm (external size)

Accessories :

Extension (use 2 max)	ZNTH-EXT	100 (h) x 600 (w) x 400 (d) mm
Table top (beech)	CO401-C	15 (h) x 640 (w) x 420 (d) mm
Table top (white)	CO401-W	15 (h) x 640 (w) x 420 (d) mm
Table top (black)	CO401-B	15 (h) x 640 (w) x 420 (d) mm
Table top (silver)	CO401-S	15 (h) x 640 (w) x 420 (d) mm
iPad holder (white)*	CO401-IPW	25 (h) x 420 (w) x 640 (d) mm
iPad holder (black)*	CO401-IPB	25 (h) x 420 (w) x 640 (d) mm

* Not available for standard beech table top

One case, extendable to three heights!

Foam protected lid holds 2x LED lights

Optional extensions stack two high

Removable internal divider

Optional table top and iPad holder*

Optional graphic wrap and table top

Table top available in four colours

Carry Bags

Large range of fabric bags to carry or store panel systems, banners, portable furniture and literature racks.

Pop-up Frame Fabric Bag

Protect your Pop-up frame by transporting or storing in a lightweight carry bag. Takes up to 3x4 frame size. Carry handle on top of bag.

Pop-up Frame Bag

AB105

770 - 1250 (h) x 115 (Ø) mm

Padded Lighting Bag

Foamed lightweight fabric bag, suitable for transporting two of the following lights; PS950-1000 LED, or LED Flood / Strip / Exhibition lights. Zipped with carry handles.

Padded Lighting Bag

AB101

570 (h) x 180 (w) x 120 (d) mm

Graphic Banner Tube

Lightweight fabric bag with internal cardboard tube and shoulder strap offering extra protection during transportation. Also available without the tube on request.

Graphic up to 850 (h) mm

AB120M

880 (h) x 155 (Ø) mm

Graphic up to 1050 (h) mm

AB120AM

1080 (h) x 155 (Ø) mm

Graphic up to 1250 (h) mm

AB120CM

1280 (h) x 155 (Ø) mm

Graphic up to 1550 (h) mm

AB120DM

1580 (h) x 155 (Ø) mm

Mag Bar Bag

Keeps Pop-up mag bars safe and clean while in transit or after use in storage. Fabric bag with hook and loop locking system, complete with carry handle. Capacity to house up to 21 mag bars.

Mag Bar Bag

AB104

735 (h) x 110 (h) x 70 (d) mm

Lighting

Make your displays come alive with great lighting that attracts attention.

Focus attention on the elements of your display that you want to highlight from our range of LED lighting.

LED Lighting

LED technology saves energy, does not overheat and lasts longer.

- > Our LED lighting has been designed specially to adapt to display and stand solutions
- > Provide better efficiency with increased lighting at lower power consumption
- > Meets safety standards and CE certified

Measuring Light: Watts and Lumens Explained

Traditionally we have measured light in watts, however watts are a measurement of power and not light output. With the emergence of new and more efficient LED technology, lumens (lm) are the preferred measurement of light.

One lumen is equivalent to the light emitted from one wax candle. For example; a traditional 40 watt light bulb has a lumen output of approximately 450lm. Our mix and match range of LED lights below have a lumen of 1200 but only use 12 watts of energy. They still give off bright white light, but use only a fraction of the energy compared to traditional halogen lights.

Perfect for illuminating larger displays

Our high-end LED spotlights are designed to illuminate large exhibition areas and backwalls

Material :	Aluminium / plastic
Watt output :	80 watt
Watt consumption :	12 watt (1200 lumens)
Single kit includes :	One spotlight + 2.5m linking lead
Double kit includes :	Two spotlights + 2.5m linking lead + 1 transformer
Linked lights :	Link up to five to one transformer
Power lead UK & Euro:	Yes (cross head screwdriver needed)

Link up to five LED lights (maximum)

Ideal for modular stands

Powerspot 50 LED

This silver clamp fixing LED has been designed to work specifically with panel systems. 360° adjustable head.

Material :	Aluminium / plastic
Watt output :	5 watt (475 lumens/3000 Kelvins)
Single kit includes :	One spotlight with 3m lead
Linked lights :	No
Power lead UK & Euro:	Yes (cross head screwdriver needed)

Powerspot 50 LED

PS050-LED

Powerspot 800 LED

Silver and white LED with integral bulldog clip for affixing to 16mm banner stand poles. Comes with curved arm and 180° adjustable head.

Material :	Aluminium / plastic
Watt output :	5 watt (520 lumens/5000 kelvins)
Single kit includes :	One spotlight GU10 LED bulb
Linked lights :	No
Power lead UK & Euro:	Yes (cross head screwdriver needed)

Powerspot 800 LED

PS800-LED

Powerspot 950/1000 LED

Great black LED suitable for Pop-up systems with straight arm and 270° adjustable head.

Material :	Aluminium / plastic
Watt output :	12 watt (1400 lumens/5500 kelvins)
Single kit includes :	One spotlight
Linked lights :	Yes - Two
Power lead UK & Euro:	Yes (cross head screwdriver needed)

Single Kit

PS950-1000-B

Double Kit

PS950-1000-BDLK

Clip on to pop-up end panels

Powerspot 1200

Fluorescent clip on light suitable for illuminating Pop-up end panels with straight arm and 270° adjustable head.

Material :	Metal / plastic
Watt output :	20 watt fluorescent light - NOT LED
Single kit includes :	One light with 2m lead
Linked lights :	Yes - US601B
Power lead UK & Euro:	Yes (cross head screwdriver needed)

Powerspot 1200 LED

PS1200
